Address: Belbari-01, Morang, Province No. 1, Nepal

CAREER OBJECTIVE

BCS (Hons) Computing student with a genuine interest in web development and building things for the browser. Completed college group projects and have been steadily building my skills through coursework and self-directed online training. Looking for a web development internship where I can apply what I have learned, contribute to a real team, and grow through hands-on experience.

EDUCATIONAL QUALIFICATION

BSc (Hons) Computing 2023 – Present
Itahari International College
London Metropolitan University
Sundarharaicha 04, Morang

PROJECTS

Travel Buddy — Full-Stack Travel & Trekking Platform Academic (Group Project)

Technologies: React, Node.js, Express.js, MySQL, Socket.IO

GitHub: github.com/Kaasang/Travel-buddy-NipekshyaShakya

- Developed and styled responsive web pages using HTML, CSS, and JavaScript as part of a 3-person college group project building a travel and trekking platform
- Built interactive UI components in React, translating design mockups into functional, mobile-friendly layouts across trip planning and booking flows
- Integrated frontend views with backend REST APIs (Express.js + MySQL) to display dynamic listings, user profiles, and real-time chat via Socket.IO
- Collaborated using Git and GitHub — managed feature branches, reviewed code, and merged pull requests with teammates

CareerLinkPro — Internship Portal with Skill Gap Analyzer Academic (Group Project)

Technologies: Java, Servlets, JSP, MySQL, Maven, Tomcat

GitHub: github.com/Manilrai/CareerLinkPro

- Designed and developed a Java MVC web application that matches students with internship listings and surfaces skill gaps aligned to job requirements
- Built a skill gap analyzer module that cross-references student profiles with role requirements, surfacing actionable missing competencies
- Structured the application using MVC architecture with JDBC-backed MySQL persistence, Servlet controllers, and JSP-rendered views

GymGUI — Desktop Gym Management System Academic (Individual Project)

Technologies: Java SE, Swing, OOP

GitHub: github.com/Manilrai/GymGUI

- Developed a desktop application to manage gym member registration, attendance tracking, and payment records with an OOP-driven data model
- Applied encapsulation, inheritance, and polymorphism to maintain a clean separation of concerns across application modules

Personal Portfolio Website Individual Project

Technologies: HTML5, CSS3, JavaScript

Live: manilrai.github.io | **GitHub:** github.com/Manilrai/manilrai.github.io

- Designed and built a fully responsive personal portfolio website using only HTML, CSS, and vanilla JavaScript — no frameworks
- Implemented light/dark mode toggle, mobile hamburger menu, and smooth scroll navigation from scratch using CSS variables and vanilla JS
- Deployed live on GitHub Pages at manilrai.github.io, accessible to recruiters and collaborators

SKILLS

Technical Skills

Programming Languages: HTML, CSS, JavaScript, Java, Python, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Java Servlets, JSP

Databases: MySQL, MongoDB

Applications / Software: Git, GitHub, VS Code, Figma, Postman, IntelliJ IDEA, Power BI, MySQL Workbench

Soft Skills

- Communication
- Time Management
- Analytical Thinking
- Team Collaboration
- Adaptability

TRAINING & CERTIFICATION

- HTML, CSS, and JavaScript: Building the Web — LinkedIn Learning, 2026
- React Essential Training — LinkedIn Learning, 2026
- Learning Jakarta EE — LinkedIn Learning, 2026
- Learning Python — LinkedIn Learning, 2026
- What Is Generative AI? — LinkedIn Learning, 2026
